WEBMASTER AND E-JOURNAL

Dr. Warapong Tungittiplakorn,
King Mongkut's University of Technology North Bangkok, Thailand

TABLE OF CONTENT

Optimization of Biomass and Oil Production of <i>Scenedesmus obliquus</i> Grown in Photobioreactor <i>Farouk K. El-Baz, and Sayeda M. Abdo</i>	1
Optimisation and Stabilisation of Cellulase and Xylanase Production by <i>Beauveria bassiana</i> <i>Wanida Petlamul, and Sawai Boukaew</i>	11
Bioethanol Production from an Agrowaste, Deoiled Rice Bran by <i>Saccharomyces cerevisiae</i> MTCC 4780 via Optimization of Fermentation Parameters <i>Tripti Agrawal, Shailesh Kumar Jadhav, and Afaque Quraishi</i>	20
Mechanical Properties of Environment-Friendly Sugar Palm Fibre Reinforced Vinyl Ester Composites at Different Fibre Arrangements <i>Ishak Muhammad Ammar, Mohd Roslim Muhammad Huzaifah, Salit Mohd Sapuan Zulkiflle Leman, and Mohamad Ridzwan Ishak</i>	25
Characteristics of Concrete Bricks After Partially Substituting Portland Cement Type 1 with Cement and Seashell Waste and Partially Substituting Sand with Glass Waste <i>Chanya Punthama, Nuta Supakata, and Vorapot Kanokkantapong</i>	36
Bamboo Fiber Commodity in Bali-Reinforced-Composite for Sokasi Craft to Increase the Tourism Products <i>Nyoman Pasek Nugraha, K. Rihendra Dantes, Nyoman Arya Wigraha, and Wayan Sudiarta</i>	49
An Index to Determine Community Wellbeing Along Coastal Community in Leyte, Philippines <i>Merites M. Buot, and Ma Zenia C. Dulce</i>	56
Acetylcholinesterase-Inhibiting Insecticide Residues in Commonly Consumed Fried Edible Insects <i>Thanatchaya Kanthawongwan, Wandee Wattanachaiyingcharoen, and Pantip Hinhumpatch</i>	68
Heavy Metal Residue and Potential Human Health Risk Factors of <i>Celosia argentea</i> (Lagos Spinach) Planted in a Soil Mixed with Landfill Leachate <i>Ogunyebi Amos Lanrewaju, Njoku Kelechi Longinus, Misbaudeen Quasim Olamilekan, Adesuyi Adeola Alex, Oludoye Oluseye Olalekan, and Balogun Olanrewaju</i>	74
Trends of Heat-Related Mortality and Association with Weather Variables in the Northeast, Thailand <i>Thiwakorn Rachutorn, Benjawan Twatsupa, and Uraivan Inmuong</i>	83
Evaluation and Projection of Changes in Temperature over Northern Thailand Based on CMIP5 Models <i>Chakrit Chotamonsak, Punnathorn Thanadolmethaphorn, and Duangnapha Lapyai</i>	93
The Extreme Climate Indices for Benghazi-Libya from Canadian Regional-Climate Model <i>Dalal M. El-Beshary, S. M. Robaa, Gamil G. Abd El-Motey, Zeinab Salah, and M. M. Abdel Wahab</i>	102
Characteristics of Black Carbon Aerosol at an Educational Site in Southern India <i>R. M. Rajeshkumar, B. Vijay Bhaskar, and K. Muthuchelian</i>	108

TABLE OF CONTENT (Cont.)

Dust Removal Capacity of Some Tree Species from Ambient Air in an Indian Metropolitan City <i>Sudipta Mukherjee, Pramita Sarkar, and Anirban Roy</i>	120
Adsorption of Organic Dyes onto Commercial Activated Carbon by Using Non-linear Regression Method <i>Hadjer Zeghache, Said Hafsi, and Noureddine Gherraf</i>	127
Comparative Studies on Removal of Textile Dye onto Geopolymeric Adsorbents <i>Marouane EL Alouani, Saliha Alehyen, Mohammed EL Achouri, and M'hamed Taibi</i>	143
Comparison and Evaluation of Different Leachate Treatment Processes for Chemical Oxygen Demand and Color Removals - Statistical Assessment <i>Salem S. Abu Amr, Abbas F. M. Alkarkhi, Yusri Yusup, and Mohammed J.K. Bashir</i>	154
The Appropriate Biochemical Oxygen Demand Concentration for Designing Domestic Wastewater Treatment Plant <i>Thanawat Jinjaruk, Parkin Maskulrath, Charintip Choeihom, and Kasem Chunkao</i>	162
Evaluation of Dissolved Oxygen Stratification in an Oxidation Pond for Community Wastewater Treatment through King's Royally Initiated "Nature by Nature" Process <i>Ruthairat Noikondee, Kasem Chunkao, Surat Bualert and Tanit Pattamapitoon</i>	169
Decentralized Biological Compact Unit for the Removal of Parasitic Helminth Ova During Sewage Treatment <i>Fayza Aly Nasr, Mahmoud Afw Gad, Ahmad Zakaria Al-Herrawy, and Abdullah S. Abdelfadil</i>	178

JOURNAL POLICY

EnvironmentAsia is the international journal published *triannually* by the Thai Society of Higher Education Institutes on Environment (TSHE). The Journal publishes original research and review papers preferably in English covering all areas of Environmental studies. Preference, however, is given to the papers of the following areas:

Environmental Pollution & Safety Assessment
Environmental Management, Protection and Conservation
Environmental Economics
Environmental Engineering
Public Health and Sanitation
Impact assessment of Pollution and Pollutants
Environmental Biology and Molecular Biology,
Toxicant induced alterations in organisms
General Toxicology (chronic, subchronic and acute), response to toxic agents at community, species, tissue, cellular & sub cellular levels
All areas of Environmental Sciences

This Journal is an open access journal. The users have the right to read, download, copy, distribute, print, search, or link to the full texts of these articles.

Paper should be submitted in English. The journal will not accept articles, which have been published or are being considered for publication by another journal, nor should papers published here be submitted to other journals. Authors need not be members of the TSHE. Manuscripts must conform to the guidelines given below.

All the papers published in the Journal, are reviewed by a group of referees for their scientific merit. Manuscript decisions are solely based on the results of peer reviews, and to eliminate bias reviewers receive manuscript with blind title page. The journal, published both as hard-copies, available by subscription and freely available on the web at <http://www.tshe.org/EA> Views expressed by contributors are not necessarily those of the TSHE.

INSTRUCTIONS FOR AUTHOR

The Journal publishes Research Papers (not exceeding 4000 words,) and Reviews (not exceeding 5000 words). The manuscript should not exceed 16 B5 pages (with top and bottom margin of 1 cm, left margin of 2.5 cm, right margin of 2 cm, and spacing between column of 0.5 cm).

1. Manuscript Preparation

Manuscript should be prepared strictly as per guidelines given below.

Manuscript should contain the Title followed by Author name(s), Author(s) affiliations,

Abstract (about 200 words), 4-5 Keywords and Text proper.

Title should be concised and typed in single column Times New Roman 14 Bold

Author Name(s) Times New Roman 12

Affiliation(s) Times New Roman 12 Italic

Abstract should be in single column and indicate the significant findings with data / data-range and conclusions of the paper. Times New Roman 12

Keywords should be in single column and adequately index the subject matter. Times New Roman 12, separate each word with semicolon

Text proper should be typed in single column and subdivided into sections: Introduction, Materials and Methods, Results and Discussion, Acknowledgements and References/Bibliographies. The title of each section Times New Roman 12 Bold. Subtitle Times New Roman 12 Italic.

Introduction (Times New Roman 12) should include precisely the aims of the study. It should be as concise as possible with no sub headings. Exhaustive reviewing of literature should be avoided, only necessary and latest ones which are required to indicate the reason for the research undertaken and the essential background should be given.

Materials and Methods (Times New Roman 12) should be sufficiently detailed to enable the experiments to be reproduced. The techniques and methodology adopted should be supported with standard references.

Results and Discussion (Times New Roman 12) should be either combined or separated. Results may be split into sub headings. Data emerging out from the study should be included, arranged in the unified and coherent sequence and should be statistically analyzed. The same data should not be presented both in Tabular and Graphic forms. Only necessary tables and figures should be given. Long confused and irrelevant discussion should be scrupulously avoided. It should deal with interpretations and the conclusions drawn, based on results and supported by relevant references. Repetition of data, statements and expressions should be curtailed.

Acknowledgement (Times New Roman 12) should include the names of those who contributed substantially to the work described in the manuscript but do not fulfill the requirements for the authorship. It should also include sponsors/funding agency of the project of which the work described is a part.

References/Bibliographies (Times New Roman 10) should be cited in the Text by the surname of the author(s), and the year. In case of more than two authors, surname of the first author followed by et al., and the year should be cited in the text. References in languages other than English must be referred to by an English translation.

In the list of references/bibliographies, full and complete references/bibliographies should be given in the following style and punctuation, arranged alphabetically by first author's surname.

Paper in a Journal

Bradford MM. (1976). A rapid and sensitive method for the quantitation of microgram quantities of protein using the principle of protein-dye binding. *Analytical Biochemistry*; 72:248-54.

Burch BH, Siegel LA. (1971). Improved method for measurement of delta-aminolevulinic acid dehydratase activity of human erythrocytes. *Clinical Chemistry*;17:1038-41.

Fleming DE, Chettle D, Wetmur JG, Desnick RJ, Robin JP, Boulay D, Richard NS, Gordon CL, Webber CE. (1998). Effect of the delta-aminolevulinic acid dehydratase polymorphism on the accumulation of lead in bone and blood in lead smelter workers. *Environmental Research*; 77: 49-61.

Book

APHA. (1998). Standards Methods for examination of water and wastewater. 20th ed. APHA, AWWA, WPCF, Washington DC, USA; 135-41.

Henry JB. (1979). Clinical diagnosis and management by laboratory method. 16th ed. PA:WB Saunders Co., Philadelphia, USA; 513-15.

Chapter in a Book

Wilkinson CF. (1990). Introduction and overview. In: The effects of pesticides on human health (Eds: Bakers SR, Wilkinson CF). Princeton Scientific Publishing Co. Inc., New Jersey, USA.; 15-20.

Unpublished research including online and personal communication should not be given in the Text and Reference sections. Footnotes should be avoided as far as possible.

The figures and tables must be placed at the end of the paper. Table and figure titles should be clearly demonstrated.

2. Manuscript Submission

Manuscript should be submitted by email to Editor in chief Professor Dr. Wanida Jinsart at environmentasiaj@gmail.com.

Panel nominated of two or more potential reviewers for reviewing the manuscript along with their complete contact postal addresses and email address is preferred.

Submission of manuscript to this Journal implies that it is not under consideration for publication elsewhere, its submission for publication has been approved by all the authors and the institution where the research was carried out. This journal does not charge submission, processing and publication fee.

Plagiarism Policy: The Journal is equipped by plagiarism detection system. Any manuscript submitted for publication in EnvironmentAsia is checked for plagiarism before editorial and peer reviewing processes.

3. Copyright

Copyright of the paper published in EnvironmentAsia belongs to the Thai Society of Higher Education Institutes on Environment (TSHE).

Paper and all correspondence should be addressed/submitted to:
