

Guideline for Presentations

Online oral presentation

The conference will be delivered via a professional online platform. Online oral presentation (we recommend PowerPoint) is limited to **15 minutes and additional 5 minutes** for questions. A session chair will facilitate each session and speakers in the session should be virtually present for their entire session in order to give a presentation (open microphone and camera), answer questions and participate in the discussion. Speakers should join the virtual session 10 minutes before the start of each session. You can find your presentation number and code in the online program, which will be announced shortly.
