TABLE OF CONTENTS

Exploring Window Size Effects in Window-sliding ARIMA Models for Future Use in PM_{2.5} Data Imputation <i>Jularat Chumnaul, and Kasikrit Damkliang</i>	1
Spatial Analysis of Nasopharyngeal Cancer Incidence and Its Association with Air Pollutants and Environmental Factors in Northeastern Thailand <i>Suwimol Dobut, Apiporn T. Suwannatrai, Mick Soukavong, and Kavin Thinkhamrop</i>	18
Co-Exposure to Particulate Matter and Ultraviolet B Radiation Induces Keratinocyte Apoptosis and Impairs Wound Healing In Vitro <i>Nontaphat Leerach, Praepilai Piriyanapratakun, Peerawut Cheunmatcha, Jaturon Kwanthongdee, Pawin Pongkorpsakol, and Anyamanee Chatsirisupachai</i>	32
Association between Blood Lead Levels and Cognitive Function among Adults in Thai Communities <i>Yanankamon Napaphosri, Titaporn Luangwilai, and Parichat Ong-Artborirak</i>	44
Occupational and Environmental Health Risks and Quality of Life of Solid Waste Workers in Nakhon Nayok, Thailand <i>Jitjira Chaiyarat, and Prat Intarasaksit</i>	54
Effects of Toxicity of Ammonia Nitrogen Derived from Swine Wastewater on Gill Tissues of <i>Pontius goniophotus</i> <i>Sunantha Laowansiri, and Naiyana Senasri</i>	65
Removal Performance of Nitrogen and Emerging Contaminants in Full-Scale Constructed Wetlands: Case study from Thailand, Japan, and the USA <i>Jidapa Plaimart, Supaporn Phanwila, Tharinee Saleepoch, Tamao Kasahar, Pongsak (Lek) Noophan, and Kasem Chunkao</i>	76
Optimal Compressive Strength Conditions of Recycled Surgical Mask Materials for Plant Pot Production Using Box-Behnken Design <i>Piyabhorn Phawchamnan, Theethawat Singhasiri, Rapeepan Yongyod, Sittiporn pantura, and Pattanaporn Chaiprasert</i>	85
Recycling of Corn and Barley Waste by Soil Fungi to Produce Bioethanol <i>Abrar A. Dahir, and Mustafa A. Al-Dossary</i>	97
Systematic Review of Sustainability Assessment Methodologies, Indicators, and Decision-Making Tools for Municipal Solid Waste Management <i>Apirak Bumyut, Trakarn Prapaspong, Vladimir Strezov, Nazmul Huda, Witsanu Attavanich and Shabbir H. Gheewala</i>	110
Spatial and Temporal Risk Assessment of Microplastics in Surface Water: A Case Study of Mun River, Ubon Ratchathani Province, Thailand <i>Ratchawut Kotlakome, Rewadee Anuwattana, and Sunantha Laowansiri</i>	126

TABLE OF CONTENTS (Cont.)

Evaluation of Hydraulic Conductivity and Stormwater Runoff Quality Improvement for Bioretention System Design in Thailand <i>Prattakorn Sittisom, Kanlayanee Yimyam, Damrongsak Rinchumphu, Thidarat Kridakorn Na Ayutthaya, Tawatchai Tanchaisawat and Sithikorn Sittikhankun</i>	140
Coastal Ecosystem Influence on Phytoremediation of Water Quality: Case Study of the Bangpakong River Estuary <i>Suchanad Boonyachai</i>	150
Assessment of Heavy Metal Levels in the Freshwater Resources of Island Communities in Surigao City, Philippines <i>Jerry T. Cuadrado, Rosalia L. Hugo, Roselle E. Bertulfo, Medielyn M. Odtojan, Manny P. Eviota, Louella S. Degamon, Mauricio S. Adlaon, Kier L. Ecle, Carmelin P. Mosa, and Monalee A. dela Cerna</i>	157
Greenhouse Gas Emissions from Waste and Wastewater: A Case Study of High-Rise Buildings in Bangkok <i>Wirine Supapornchaisin, and Wilasinee Yoochatchaval</i>	168
Green Sugarcane and Sugar: A Sustainable Future for Thai Sugar Industry <i>Kanyarat Kotphukhiew, and Kanongnij Sribuaiam</i>	175
WISE Model: A Spatially Explicit Framework for Vertical and Lateral Carbon Fluxes in Sam Ngao Watersheds of Thailand <i>Banchongsak Faksomboon</i>	188
Integrated Assessment of Soil Erosion Risk Using RUSLE, GIS and RS, in a Sub-Watershed of Lower Northern Region, Thailand <i>Banchongsak Faksomboon, and Tada Promtup</i>	202
Effect of Tidal Frequency on Soil Carbon Storage in the Mangrove Forest at The King's Royally Initiated Laem Phak Bia Environmental Research and Development Project, Thailand <i>Sunaree Wangluk, Narouchit Dampin, Kittichai Duangmal, Somnimirt Pukngam, Nirut Uppanunt, and Chalisa Tudsanaton</i>	221
Rediscovering Challenges in Nigeria's Social Housing System: Identifying Archetypes Towards Just Transition <i>Michael Ojo, and Napong Tao Rugkhanan</i>	230

JOURNAL POLICY

EnvironmentAsia is the international journal published *triannually* by the Thai Society of Higher Education Institutes on Environment (TSHE). The Journal publishes original research and review papers preferably in English covering all areas of Environmental studies. Preference, however, is given to the papers of the following areas:

Environmental Pollution & Safety Assessment
Environmental Management, Protection and Conservation
Environmental Economics
Environmental Engineering
Public Health and Sanitation
Impact assessment of Pollution and Pollutants
Environmental Biology and Molecular Biology,
Toxicant induced alterations in organisms
General Toxicology (chronic, subchronic and acute), response to toxic agents at community, species, tissue, cellular & sub cellular levels
All areas of Environmental Sciences

This Journal is an open access journal. The users have the right to read, download, copy, distribute, print, search, or link to the full texts of these articles.

Paper should submitted in English. The journal will not accept articles, which have been published or are being considered for publication by another journal, nor should papers published here be submitted to other journals. Authors do not need to be members of the TSHE. Manuscripts must conform to the guidelines given below.

All the papers published in the Journal, are reviewed by a group of referees for their scientific merit. Manuscript decisions are solely based on the results of peer reviews, and to eliminate bias reviewers receive manuscript with blind title page. The journal, published both as hard-copies, available by subscription and freely available on the web at <http://www.tshe.org/EA> Views expressed by contributors are not necessarily those of the TSHE.

INSTRUCTIONS FOR AUTHOR

The Journal publishes Research Papers (not exceeding 4000 words,) and Reviews (not exceeding 5000 words). The manuscript should not exceed 16 B5 pages (with top and bottom margin of 1 cm, left margin of 2.5 cm, right margin of 2 cm, and spacing between column of 0.5 cm).

1. Manuscript Preparation

Manuscript should be prepared strictly as per guidelines given below.

Manuscript should contain the Title followed by Author name(s), Author(s) affiliations, Abstract (about 200 words), 4-5 Keywords and Text proper.

Title should be concised and typed in single column Times New Roman 14 Bold

Author Name(s) Times New Roman 12

Affiliation(s) Times New Roman 12 Italic

Abstract should be in single column and indicate the significant findings with data / data-range and conclusions of the paper. Times New Roman 12

Keywords should be in single column and adequately index the subject matter. Times New Roman 12, separate each word with semicolon

Text proper should be typed in *single column and subdivided into sections*: Introduction, Materials and Methods, Results and Discussion, Acknowledgements and References/Bibliographies. The title of each section Times New Roman 12 Bold. Subtitle Times New Roman 12 Italic.

- **Introduction** (Times New Roman 12) should include precisely the aims of the study. It should be as concise as possible with no sub headings. Exhaustive reviewing of literature should be avoided, only necessary and latest ones which are required to indicate the reason for the research undertaken and the essential background should be given.
- **Materials and Methods** (Times New Roman 12) should be sufficiently detailed to enable the experiments to be reproduced. The techniques and methodology adopted should be supported with standard references.
- **Results and Discussion** (Times New Roman 12) should be either combined or separated. Results may be split into sub headings. Data emerging out from the study should be included, arranged in the unified and coherent sequence and should be statistically analyzed. The same data should not be presented both in Tabular and Graphic forms. Only necessary tables and figures should be given. Long confused and irrelevant discussion should be scrupulously avoided. It should deal with interpretations and the conclusions drawn, based on results and supported by relevant references. Repetition of data, statements and expressions should be curtailed.
- **Acknowledgement** (Times New Roman 12) should include the names of those who contributed substantially to the work described in the manuscript but do not fulfill the requirements for the authorship. It should also include sponsors/funding agency of the project of which the work described is a part.
- **References/Bibliographies** (Times New Roman 10) should be cited in the Text by the surname of the author(s), and the year. In case of more than two authors, surname of the first author followed by et al., and the year should be cited in the text. References in languages other than English must be referred to by an English translation.

In the list of references/bibliographies, full and complete references/bibliographies should be given in the following style and punctuation, arranged alphabetically by first author's surname.

Paper in a Journal

Bradford MM. (1976). A rapid and sensitive method for the quantitation of microgram quantities of protein using the principle of protein-dye binding. *Analytical Biochemistry*; 72:248-54.

Burch BH, Siegel LA. (1971). Improved method for measurement of delta-aminolevulenic acid dehydratase activity of human erythrocytes. *Clinical Chemistry*;17:1038-41.

Fleming DE, Chettle D, Wetmur JG, Desnick RJ, Robin JP, Boulay D, Richard NS, Gordon CL, Webber CE. (1998). Effect of the delta-aminolevulinate dehydratase polymorphism on the accumulation of lead in bone and blood in lead smelter workers. *Environmental Research*; 77: 49-61.

Book

APHA. (1998). Standards Methods for examination of water and wastewater. 20th ed. APHA, AWWA, WPCF, Washington DC, USA; 135-41.

Henry JB. (1979). Clinical diagnosis and management by laboratory method. 16th ed. PA:WB Saunders Co., Philadelphia, USA; 513-15.

Chapter in a Book

Wilkinson CF. (1990). Introduction and overview. In: The effects of pesticides on human health (Eds: Bakers SR, Wilkinson CF). Princeton Scientific Publishing Co. Inc., New Jersey, USA.; 15-20.

Unpublished research including online and personal communication should not be given in the Text and Reference sections. Footnotes should be avoided as far as possible.

The figures and tables must be placed at the end of the paper. Table and figure titles should be clearly demonstrated.

2. Manuscript Submission

Manuscript should be submitted by email to Editor in chief Associate Professor Dr. Ratcha Chaichana at environmentasiajournal@gmail.com.

Panel nominated of two or more potential reviewers for reviewing the manuscript along with their complete contact postal addresses and email address is preferred.

Submission of manuscript to this Journal implies that it is not under consideration for publication elsewhere, its submission for publication has been approved by all the authors and the institution where the research was carried out. This journal does not charge submission, processing and publication fee.

Publication Fee: The publication fee is 250 USD for member and 300 USD for non-member. Once the manuscript is accepted for publication, the payment can be transferred via Paypal account "tshe2005@gmail.com".

Plagiarism Policy: The Journal is equipped by plagiarism detection system. Any manuscript submitted for publication in *EnvironmentAsia* is checked for plagiarism before editorial and peer reviewing processes.

3. Copyright

Copyright of the paper published in *EnvironmentAsia* belongs to the Thai Society of Higher Education Institutes on Environment (TSHE).

Paper and all correspondence should be addressed/submitted to:

Associate Professor Dr. Ratcha Chaichana

Editor in Chief, EnvironmentAsia
